

2017 Car crash data in Allegheny County

How to use this Application

This application renders locations of car's accident in Allegheny County in the year 2017.

Interactivity

- A specific month can be selected using a drop-down list, and all options will show all the car's accident during 2017.
- The number of cars involved in the accident can be selected using a slide bar – a range is selected (1- will select all accident which has one car involves, 1-2 will select all car's accidents which have 1 or 2 cars to involve and so on) Map.
- Submit – only after using this button the change will impact the map

The Map has 3 types of icons:

Indicates car's accidents with Fatalities.

Indicates car's accidents with injuries (no fatalities).

Indicates car's accidents with no fatalities and no injuries.

Selecting an Icon will display a popup several data about the specific accident.

The Map is fully interactive (Zoon in Zoom out).
